

Annie Jiang
Facilitator/Coach

Annie specialises in business simulations and experiential learning. With over 15 years of experience in facilitating business simulations, Annie believes in observing behaviours and working to improve them. In her sessions, she sets the stage for people to be themselves, to be mindful of what they do and say, to reflect on the messages carried out in their behaviours and to set intentions to keep or change their behaviours in order to become better leaders and collaborators.

Annie frames creativity as a mindset that drives innovative behaviours. Her process emphasises communication and listening. She encourages people to talk, open up and explore their ideas in order to release their creativity and produce more connections and 'Aha!' moments.

For the past 3 years, Annie has been working with Michelin China. As part of the Young Manager Fast Growing Camp, she designed and delivered a programme aimed at helping increase young leaders' creativity in day-to-day management. The feedback from the participants says her workshops are practical, intensive and fun, which perfectly describes what clients can expect from her facilitation.

Annie is a JOLT-certified Personal Transformation Coach and an Artgym Advanced Practitioner.

She loves outdoor activities such as mountain trekking, jogging and skiing; as well as reading, Latino ballroom dancing and free-style painting.
